React.js

Anshik Suhane,

Full Stack Web Developer

Professional Summary

Dynamic Full-Stack Web Developer with proficiency in the MERN stack, adept at both front-end and back-end development. Skilled in Generative AI and rapid adaptation to new technologies. Recognized for enhancing development processes and ensuring seamless application integration through excellent communication and problem-solving abilities.

Projects

EatLog [Live Demo Link](#) [Github Repo Link](#)

JavaScript React Git Node.js Express.js

MongoDB RESTful APIs

Responsive Web Design Tailwind CSS

- Developed React components for QR Code Scanning to provide instant access to nutritional information.
- Contributed to responsive design implementations to ensure optimal performance across devices.
- Integrated the frontend with RESTful APIs for real-time calorie updates and dish customizations.
- Utilized a MERN stack including MongoDB for database interactions and Node.js/Express.js for server-side logic.

Fruit Store [Live Demo Link](#) [Github Repo Link](#)

JavaScript React RESTful APIs

Responsive Web Design Tailwind CSS

Express.js

- Created a user-friendly fruit store app with React for smooth navigation.
- Integrated Firebase for secure authentication and real-time updates.
- Designed responsive web pages with HTML5, CSS3, and Tailwind CSS for cross-device consistency.
- Employed thorough testing and debugging to ensure application reliability.
